AMERICAN
DESK MANUFACTORY
OF
PETER KEHR,

123 to 135 Mangin Street, New York,

NEAR THE HOUSTON ST. FERRY, EAST RIVER.

The present Catalogue is intended to be the standard of my work for the year 1883-84, and the articles mentioned herein are to be designated by their numbers as Desks, Bookcases, or Secretaries. The notice mentioned below this preface will be for the guidance of my customers, and all orders and sales of goods are to be subject to the conditions implied therein.

The accompanying Price-List has on a number of articles again been revised for the benefit of the trade, and I trust I shall continue to enjoy their confidence hereafter, to as full an extent as I have experienced that pleasure in the past; for which I render them my hearty thanks.

It is not my intention to say in this preface any words of commendation or praise in behalf of my work, or of myself, as by this time I am too favorably known by the entire trade throughout the United States and Foreign Countries, and enjoy the confidence and trust reposed in me by almost every principal business house.

This Catalogue is intended for the accommodation of the trade, and is furnished to them free of charge.

A number of new styles have been added, some of which are very rich and elaborate, and will supply a want long felt in the market.

The demand for my goods has been so extensive from all parts of the country that I was unable to supply them with that promptness with which I have always endeavored to serve my customers; but I take the greatest pleasure in announcing, that with my enlarged facilities and room, together with my personal supervision of an increased force of the best mechanics, I will be able in the future to execute their orders with greater care and dispatch. The fitting up of offices, with glass partitions, etc., is made a specialty in my line.

Calling your attention to the Notice and conditions of sales on the opposite side of this page,

I remain,

Yours respectfully,

PETER KEHR.

NOTICE.

To the Trade and Public in general it must be strictly understood that all rules are made, and all orders accepted subject to the following Rules and Conditions:

1. That in the construction of my work the materials will be selected according to the quality and price of the article (as customary among all manufacturers), partly of solid and partly of soft wood veneered; this is done in order to secure a better standing of the work, and for the purpose of furnishing a particular class of work at lower rates.

2. That a number of articles have been much improved and are far superior to what the cut shows, and that wherever the article deviates from the cut, such deviation is in favor of the article in accordance with the changes of the times in regard to character and style.

3. That my Price-List only applies to the regular work as shown in my illustrated catalogue. When orders are given which in any way vary from the regular styles, the Price-List rates are not to be applied.

4. I also wish to impress upon the minds of my customers, that when orders are given which deviate from my regular styles and measurements, that they will have to be made to order in regular rotation, as noted in my order-book. In consequence, I cannot allow myself to be limited to a specified time in their construction but will endeavor to furnish the same with the least possible delay.

5. I would also call their attention to the fact that in the selection of the materials as well as in the construction of my work, my personal attention will be constantly given, in order that the same may prove satisfactory to my customers; but I cannot allow them to hold me responsible for anything that may happen to the work after shipment, as I shall use my best exertions to make shipment in good order, after which the purchasers must assume all the responsibility.

6. Please take notice, that for the purpose of liberating myself from constant annoyance caused by many in the trade and by such as pretending to be agents in sending or directing private men to purchase of my goods, and afterwards claiming a percentage or the difference of the amount and the wholesale Price-List.

7. Under such circumstances I feel compelled to bring to the knowledge of the trade and others, that it has never been my desire to have private men sent or directed to me, and that from this date I will not consider or know any one in the transaction of a sale to private parties.

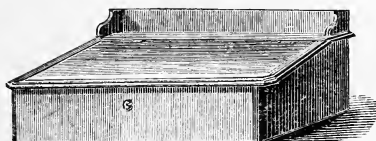

PETER KEHR.
